

As per National Assessment and Accreditation Council (NAAC) guidelines every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure. Since quality enhancement is a continuous process, the IQAC becomes a part of the institution's system and works towards realization of the goals of quality enhancement and sustenance.

The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institutions

The college Internal Quality Assurance Cell was established on 19th April 2021. The Cell has been functioning actively in our academic and administrative activities.

IQAC has defined their role as

- The development and application of quality parameters for the activities of the institution.
- To create a student centric teaching environment conducive to imparting quality education.
- Administering feedback mechanism for the college from stakeholders on quality related affairs.
- To create quality consciousness among the stakeholders of the institution by organizing workshops, seminars etc.
- Organizing orientation programmes for staff and administrative staff.
- Documentation of the various programmes/activities leading to quality enhancement.
