Alumni Feedback for the academic year 2021-22

Feedback analysis:

Gathering feedback from our alumni is highly valued by Le-Ment College of Advanced Studies. Since 2018, the college has regularly contacted our graduated students through teachers and department representatives to inquire about their current status and how they are faring in the current landscape.

In the academic year 2021-22, the institution collected feedback from nearly 140 alumni, analyzed their feedback, and considered their suggestions. The college has implemented some changes for the academic year 2022 based on this feedback.

Suggestions:

- Offer additional seminar sessions to students to enhance their personal and intellectual abilities
- Enhance the library facilities
- Improve the infrastructure and computer lab facilities
- Make the campus more appealing

Actions taken based on the suggestions:

- The library facilities have been improved with the implementation of a digital library
- Wi-Fi systems have been introduced
- The infrastructure has been improved, including the addition of greenery to the campus
- More student-centric activities have been introduced through academic and club activities.
