

Best Practice 1

NIRAV -Feed the hunger

To enhance human values and ethics provide with the opportunity to understand the social issues and thereby make them lend a helping hand to the LE-MENT College of Advanced Studies place great emphasis on the core values of Care, Passion and Focus. We should all provide food for the poor. So many families die every day of starvation while we waste our food. Every one need food, if we don't have food to keep us moving and staying healthy. Everyone should have the right to live a healthy life especially when there are tons of foods being wasted. Every year thousands of people are dying because of hunger. We need to help them out. No one deserves to go through the pain of starvation, that's why we should all provide food for the poor.

The Social Club started the "feeding the poor" programme, which was also known as "Niravu- Feed the Hunger" and Padheyam. Students' commitment to feeding the hungry is evident. Students from one class bring home cooked food (pothichoru) on Wednesdays. This was done on Fridays at first. They search the grounds of Pattambi and Shornur Railway Stations, bus stops, and other surrounding areas for the underprivileged, destitute, homeless, and hungry. They learn the value of food and the significance of preventing hunger through this practice. It encourages them to preserve the importance of human values and lessen food waste.

Our students' social responsibility is something we are proud of, as the Social Club has existed since the college's founding. The staff and students are both welcome to join the club. Each class's student coordinators serve as representatives for the club's operations. The Social Club starts charitable fundraising initiatives each year. Members of the social club are prepared to assist those who deserve it in the event that a medical emergency is reported. The administration, employees, and students all enthusiastically and assiduously support the social club's events.
